

Summer Institute: Incarceration and the Humanities
Abstract Review

Groups:

- Jill Kehoe, Maureen Doyle, and Martina Clark
- John Chaney and Leah Richards
- Anna Voissard and Joni Schwartz

Please read the abstract(s) as assigned above and answer the following questions:

- ❖ In a sentence or two, how does this project connect to your own?
- ❖ How might you explain the humanities connection of this project? You might elaborate on what has already been written and/or provide new ways to conceive of this project in light of humanities connections.
- ❖ If this project is for a course offered at LaG:
 - How might this relate to larger college-wide initiatives, such as core competencies, the strategic plan, college priorities?
- ❖ If this is for a prison-based project:
 - How might this support the mission of the college?
- ❖ In addition to the listed “possible collaborations,” what potential collaborations do you envision as possible here?
- ❖ Do you have any further suggestions for resources the author might engage with?

Please complete this no later than 24 June, upload to the Google folder (which will be shared with you soon), and bring a printed copy to the institute.
